The gopro hero5 black is a powerful tool for shooting underwater video. gopro's new flagship action camera, it was released alongside the smaller hero5 session and hero session. Gopro video cameras have become incredibly popular with divers over the last couple years, set up in a variety of ways to capture fleeting moments underwater. pole cams, selfie poles, housing mounts, handles, trigger grips, dome ports, tray/arm setups, mask mounts, spear gun mounts and all sorts of When you've finished filming your gopro automatically creates a compressed mp4 file (that's much smaller than you expect from a similar length 4k video) at 30 fps and you don't have to do any of the hard work creating a photo sequence. It's been two years since the last major gopro hero launch. no, i don't count the session last year. i'm talking about a multi-camera launch like gopro has typically done each fall for the majority of its history.
