Open up and bleed! is a live album by iggy and the stooges that was released in 1995. the copy on the cd cover shows a subtitle – "the great lost stooges album?" – and suggests a line-up of songs that the band had been performing in their live shows, which might have been collected into a fourth studio album by the band that was never released. Sakamoto also appears in the video painting words and messages to an open shutter camera. iggy pop, who performs the vocals on "risky", chose not to appear in the video, allowing his performance space to be occupied by the surrealist era robot. iggy pop's follow-up to blah blah blah, instinct (1988), was a turnaround in musical direction. its Iggy pop: open up and bleed is a truly definitive work—not just about iggy pop’s life and music but also about the death of the hippie dream, the influence of drugs on human creativity, the nature of comradeship, and the depredations of fame. Iggy pop: open up and bleed reveals the truth behind the myths. former mojo editor paul trynka tracked down the star s friends, family, lovers and fellow musicians, conducting over two hundred and fifty interviews, unearthing countless new stories about iggy s rollercoaster life, his music and his often misunderstood friendship with david bowie. It was on that divide that jim osterberg and iggy pop grew up. as a rock star, iggy pop would often refer to his upbringing in a trailer park, the definitive blue-collar home. but as a schoolboy, jim osterberg was regarded as the middle-class boy most likely to succeed.
